MATH 2200 Intro to Discrete Structures  
Section 1   Winter 2009

Instructor:  Nick Galatos  
Meeting times:  12:00-12:50 MTWR in John Greene Hall 102  
Office:  JGH 213  
Office hours:  11-12 MTWF (Tentative)  
Office phone number:  (303) 871-3581  
e-mail:  ngalatos@du.edu  
web page:  http://math.du.edu/~ngalatos  

Homework  
Homework problems will be given in class and posted on my web page. Selected ones will be graded. You are strongly advised to work on all the homework problems, as they may be similar to the ones on the exams. You are allowed to discuss the homework problems with other students, but you are expected to write down the solutions by yourself.

No late homework will be accepted, but you may arrange for your homework to be turned in by a fellow student or put it in my mailbox by the beginning of class, if you know you will be missing class. Moreover, you may drop your lowest two homework grades, so if you don’t turn in homework for a class, this can be one of the two scores you decide to drop. Homework will account for 200 points of your final grade.

Quizzes and Worksheets  
There may be a short quiz in the beginning of class, referring to previously covered material. Often worksheets will be given in class; they will be on material just covered. For some of the quizzes/worksheets you will be allowed to use the book and you can drop the two lowest grades. (If you miss a quiz/worksheet, your grade will be zero.) Quizzes and worksheets will account for 300 points of your final grade.

Exams  
There will be one midterm and one final exam, worth 200 and 300 points, respectively. Miderms and final exams cannot be dropped; make up exams will be allowed only in special circumstances.
Your grade
All of the above add up to 1000 points. Letter grades will be assigned as follows:

- 930-1000........A
- 900-929........A-
- 870-899........B+
- 830-869........B
- 800-829........B-
- 770-799........C+
- 730-769........C
- 700-729........C-
- 670-699........D+
- 630-669........D
- 600-629........D-
- Below 600......F

Honor Code
As every course in DU, MATH 2200 is ruled by the principles and regulations of the Honor Code. In particular, you are not allowed to use any kind of help or a calculator during the exams unless otherwise instructed.

Office hours
I strongly encourage you to use my office hours. Don’t wait until you are lost before coming for help. Even if there is something seemingly unimportant that you don’t understand, please come and ask!

Web page and e-mails
Class information, including assigned homework, sections covered, exam dates and the syllabus, will be posted on my web page. Feel free to send me e-mails with questions, comments and feedback.
